

WHY RECORD OUR PROPERTY?

PROPERTY RECORDING SERVES SEVERAL PURPOSES

- Property that is marked is less desirable to a burglar as it is harder for them to sell.
- If property is stolen and marked there is a greater chance of it being returned to the owner when recovered.
- If a burglar is arrested with marked property, it increases the chances of apprehension.

WHAT DO I RECORD?

Even if you think your property isn't valuable, you can still record it. If it is stolen, it makes it more difficult for the burglar to dispose of it and far more likely that they will be apprehended if caught in possession.

Examples of property commonly recorded include: mobile phones, tablets, game consoles, laptops, jewellery, sunglasses and GPS systems.

HOW DO I RECORD PROPERTY?

THERE ARE SEVERAL WAYS TO RECORD PROPERTY:

- Engraving
- Photography
- Ultra violet pens

Engravers can be purchased from hardware stores, or contact your local Neighbourhood Watch group as they may have engravers available to borrow.

It is recommended you mark the property with your driver's licence, Medicare or passport number because this is a unique number which can easily be identified by police. Where you mark the property is important. If you want the marking to be out of sight, choose somewhere behind or underneath the item rather than somewhere hidden.

It is recommended you also take photos of your property and valuables, particularly items you may not want to engrave such as jewellery and paintings. If you take photos of yourself wearing the jewellery, it will help with insurance claims if the item is stolen.
