MONITORING OF SERVICE STANDARDS
We are always keen to improve how we deliver policing services to the community. To enable us to do this we will be monitoring performance against the Service Standards through our own internal recording systems, Customer Contact Surveys and other constructive feedback.

Our performance will be reported to government in the WA Police Annual Report and on our website.

CONTACTING WA POLICE

Emergency Calls to 000

The emergency 000 telephone number is for use when there is a life-threatening or time critical emergency. You will be asked which emergency service is required - Police, St John Ambulance or Fire and Emergency Services Authority.

We aim to answer 90% of emergency calls directed to WA Police within 20 seconds.

Non-emergency calls to 131 444

If you need police assistance and it is not an emergency use the 131 444 telephone number.

We aim to answer 85% of non-emergency calls to the Police Assistance Centre within 20 seconds.

How we will respond to your call

For both emergency and non-emergency calls, the operator will ask for your name and address and the reason for your call.

If it is a situation which requires police to attend, the operator will take details about the situation from you over the telephone. This may take some time but we need to do this to make sure that we respond to your needs in the right way.

If it is not a matter that WA Police are able to deal with, we will refer you to the appropriate agency.

ATTENDING INCIDENTS

If police attendance is required we will allocate a response priority to your call according to its level of seriousness. The response priorities are:

• High (Urgent attendance required. Life threatening, serious offence/incident, situation volatile)
• Immediate (Immediate attention required. Offence continuing, evidence to be preserved, situation non-volatile)
• Routine (Routine attendance required. Not urgent, situation non-volatile)
• Local (Police attendance may not be required. Local police station to contact customer for resolution).

Within the metropolitan area and major regional centres we aim to attend High priorities within an average of 9 minutes and Immediate priorities within an average of 25 minutes. We aim to attend or call back to arrange resolution of Routine priorities within an average of 60 minutes.

We aim to attend your incident at the earliest possible time according to the allocated response priority and the demands for our service within the community at any particular time.

CUSTOMER SERVICE

WA Police aim to provide a quality customer focused service to the WA community. We will do this by:

• Taking ownership of your matter if it is a policing issue
• Attempting to resolve your matter at the first point of contact, or
• Contacting and transferring your matter to the appropriate area of responsibility for management until resolved, and
• Providing general information about the steps police will take to address your matter or incident
